## Page Structure

- The page consists of a container with a maximum width of 690px.
- The container has a white background  and is surrounded by a 1px solid #ccc border.
- Inside the container, there is a wrapper div with a border-radius of 5px and a 1px solid  border.
- The wrapper div contains the main content of the page.

## Content Layout

- The content is centered vertically and horizontally on the page using flexbox.
- The content has padding of 30px on all sides.

## Text Input Section

- The text input section is a wrapper div with a border-bottom of 1px solid 
- It contains two text areas: one for input and one for displaying the translation.
- The input text area has a class "from-text" and a placeholder text "Enter text".
- The translation text area has a class "to-text" and is readonly and disabled.
- Both text areas have a height of 250px, font-size of 18px, and border-radius of 5px.
- The text areas have padding of 10px on the top and bottom, and 15px on the left and right.
- The placeholder text has a color of #b7b6b6 

## Language Controls

- The language controls are displayed in an unordered list with the class "controls".
- Each control is represented by an li element with a class "row".
- The control row has a flex layout with icons on the left and the language select element on the right.
- The icons are represented by an i element with the class "fas fa-volume-up" for the audio icon, and an i element with the class "fas fa-copy" for the copy icon.
- The language select element is represented by a select element.
- The select elements for both source and target languages are displayed side by side with a small space between them.
- The select elements have a font-size of 18px and no border or background.
- The icons and select elements are vertically aligned using flexbox.

## Translate Button

- The translate button is represented by a button element.
- It has a width of 100%, padding of 14px, and a background color of #ea07a2 
- The button text is white, has a font-size of 17px, and no border or outline.
- The button has a border-radius of 5px and a cursor pointer.
- The button is located at the bottom of the container with a margin-top of 20px.
